

Area in Square Meters/Centimeters

FREE Worksheet - 5

Time: 20 minutes

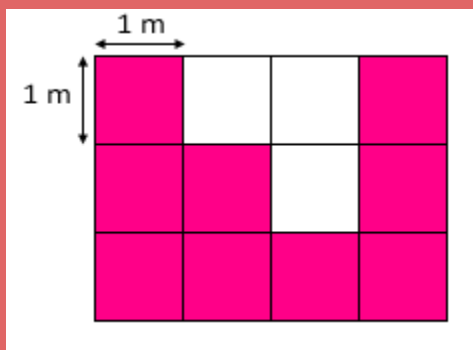

(Detailed solutions at the end)

1. What is the area of the shaded figure below?

Answer: _____ cm²

2. What is the area of the shaded figure below?

Answer: _____ m²

3. What is the area of the shaded figure below?

Answer: _____ cm^2

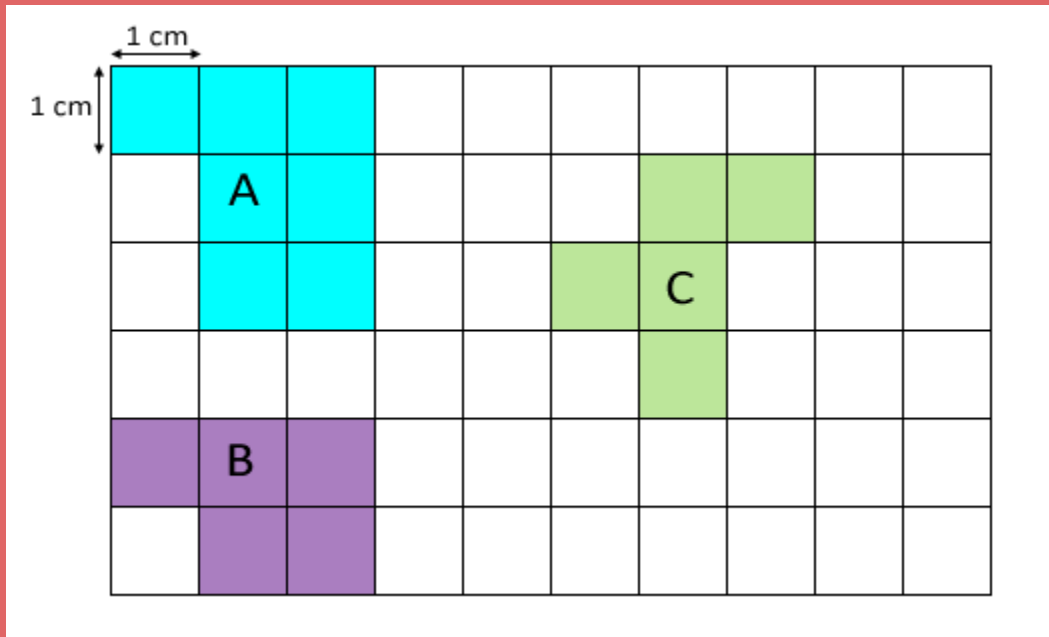

4. What is the area of the shaded figure below?

Answer: _____ m^2

5. Which of the figures below has the greatest area?

- a. Figure A
- b. Figure B
- c. Figure C

SOLUTIONS

Problem 1

Number of full shaded squares in the figure = 8

Number of half shaded squares in the figure = 2 = 1 full shaded square

Total number of shaded squares in the figure = 8 + 1 = 9

The figure is made up of 9 1-cm squares.

So, the area of the shaded figure is 9 cm².

Problem 2

Number of shaded squares in the figure = 9

The figure is made up of 9 1-m squares.

The area of each 1-m square is 1 m².

So, the area of the shaded figure is 9 m².

Problem 3

Number of shaded squares in the figure = 6

The figure is made up of 6 1-cm squares.

The area of each 1-cm square is 1 cm^2 .

So, the area of the shaded figure is 6 cm^2 .

Problem 4

Number of full shaded squares in the figure = 9

Number of half shaded squares in the figure = 4 = 2 full shaded squares

Total number of shaded squares in the figure = $9 + 2 = 11$

The figure is made up of 11 1-m squares.

So, the area of the shaded figure is 11 m^2 .

Problem 5

Number of shaded squares in Figure A = 7

Area of Figure A is 7 cm^2 .

Number of shaded squares in Figure B = 5

Area of Figure B is 5 cm^2 .

Number of shaded squares in Figure C = 5

Area of Figure C is 5 cm^2 .

So, **Figure A** has the greatest area.
